Web Development Skills:

HTML, CSS & JS:

I have essential experience in the front-end sectors. Compiling with CSS framework **Bootstrap**. Also currently learning the front-end framework **React JS** at this point.

Python Programming and Django:

I am most efficient at Python Programming for doing web scraping, automation, database programming, and building small web applications and REST API in **Django**. I have most of the essential knowledge for building web pages.

Projects I have done in the Past:

Django Feedback App: <https://github.com/AyanUpadhaya/DjangoFeedbackApp>

Django Poll App: <https://github.com/AyanUpadhaya/DjangoPollApp>

Django Todo App: <https://github.com/AyanUpadhaya/DjangoTodoApp>

My Youtube Video as Reference: <https://www.youtube.com/watch?v=lyKfpapWS50>

Flask Programming:

I have somewhat experience in Flask. But mainly focused on Django. Here are two projects link I have done in past with Flask.

Flask TodoApp: <https://github.com/AyanUpadhaya/FlaskTodoApp>

Image Uploader: <https://github.com/AyanUpadhaya/Flask-Image-Uploader-App>

SQL Programming:

I am quite familiar with Structured Query Language. Here are two projects link I have done in past with SQLite database.

Personal Database: <https://github.com/AyanUpadhaya/PyDatabase>

Library Manager App: <https://github.com/AyanUpadhaya/LibraryManagerApp>

Expense Tracker App <https://github.com/AyanUpadhaya/ExpenseTrackerApp>

Image Storing App: <https://github.com/AyanUpadhaya/ImageStoreDB>

Web Scraping and Automations:

I find web scraping and automation as the most interesting part of python programming. Here are a few project links:

Pastebin Automation(My unique project):

<https://github.com/AyanUpadhaya/PastebinAutomation>

Email Sender: <https://github.com/AyanUpadhaya/PyMailSender>

Google Service Api Project:

<https://github.com/AyanUpadhaya/GoogleServiceApiProject>

File Management Automation:

<https://github.com/AyanUpadhaya/FileManagerScript>

Tools I like most: BeautifulSoup, Selenium, Request HTML for Web scraping.

I always try my best to stay up to date with current trends and learn new things. My most interest in programming is to build something that can help others. Programming is the only field I find myself more focused than anything else.
